PREPARATORY ACTIONS			M2	I	1		1	T	I	上	I				士	T					J		1	I		I	I					I	
A.1 Study of the current situation of photocatalytic materials application in polluted air treatment. Review of the	Proposed		A11 A12																														
European Air Quality condition and analysis of the pollution scenarios.	Actual			A11 A12																													
IMPLEMENTATION ACTIONS					МЗ				47		M4	4 M5																					
B.1. Environmental measurements of	Proposed			B11					B12						T						1					Ī						t	
contaminants in selected urban locations before the installation of the	"Promised" in Inception Report					BII						B12																					
photocatalytic textile prototypes.	Actual					Bii												B 12								\int							
	Proposed		B21			B22 B23		1	B24 B25	5					Ī																	Ī	
B.2. Photocatalytic textiles prototyping.	"Promised" in Inception Report			B21		F	B22 B23				B24 B25	5																					
	Actual			B21						B22 B23				F	B25	<u> </u>		B24															
B.3. Demonstration of photocatalytic	Proposed															B31				F	B32												
activity of functional textile prototypes at EUPHORE simulation chamber.	"Promised" in Inception Report																	B31							E	B32							
	Actual			4 <u> </u>																		B31								B32			
	Proposed																	B41											B42 B43				
B.4. Demonstration of photocatalytic activity of textile prototypes at urban environment - Quart de Poblet.	"Promised" in Inception Report																			E	B41								B42 B43				
civiloninent quartur social	Actual																							E	341					B42 B43			

COMMUNICATION AND DISSEMINATION																																		M6
